

MTOC LEAGUES AGREEMENTS

1) Inter-League Town/Club Movement (effective August, 2007)

Towns/Clubs may move between leagues subject to the following conditions:

- a. as a condition precedent to changing leagues, a town/club must have been a member of its current league for at least three seasonal* years;
- b. the decision to accept a town/club rests solely with the league to which the town/club has applied for membership;
- c. the entire program of the town/club must be moved;
- d. written notification must be given to the current league prior to the start of a seasonal year (defined as September 1) for changes to take effect at the start of the subsequent seasonal year, but a shorter notice period may be acceptable if agreed to by both the transferor and transferee leagues;
- e. the transferring town/club must be in good financial standing with the league which they are leaving, with the Leagues Committee being the arbiter in instances of dispute; and,
- f. the town/club must maintain membership within the receiving league for a minimum of three complete seasonal years.

(*) = a "seasonal year" is defined as September 1 through August 31, annually.

2) Player Movement

A. Intra-League:

1. Intra-league player transfers are governed by the bylaws and playing rules of each respective league;

B. Inter-League:

1. Any player who wishes to transfer from one league to another league must have a written agreement from both town/club organizations and both league presidents for the transfer to be valid for MTOC eligible teams. (see inter-league player transfer process below);
2. If a town/club decides to accept a player of another town/club not approving of the move, that town's/club's teams will not be eligible for MTOC competition. If a team/club decides to accept a player in spite of the current town/club not approving the move, that team/club will not be eligible for MTOC play.
3. There are clubs that overlap with town programs. These have been long-standing organizations previously recognized by their league. These clubs are considered grandfathered and can continue to operate within their league as they have in the past and still be MTOC eligible.
4. Inter-league player transfers onto MTOC-eligible rosters (inclusive of all leagues affiliated with MA Youth Soccer) are not permitted (are 'frozen') after April 30th of each seasonal soccer year.

3) Inter-League Transfer Procedure:

A request for an inter-league transfer may only be initiated by an official of the requesting town or soccer club organization ('requesting organization'). Requests initiated by parents, coaches or players will not be considered.

Players are free to play on any team, subject to the approval of whatever local entity has governance authority for that team. Any team with a player who has not secured a needed inter-league transfer approval may not represent their league in the Massachusetts Tournament of Champions competition.

The inter-league transfer process involves a sequential series of steps. A 'no' at any step in the process terminates the approval request process.

Any request for an inter-league transfer must include the following information:

- The name of the player;
- The current town (club) and league affiliation of the player in question;
- The league affiliation, town, team and coach's name of the requesting organization; and,
- The reason(s) the inter-league transfer is being requested.

Step 1: The requesting organization must first check with their home league (the receiving league) to assure that the receiving league would ultimately approve any such requested player transfer.

Step 2: The requesting organization contacts the town organization that would be losing the player (the 'ceding organization') to have it sign off on releasing the player from their town or club program.

Step 3: The requesting organization contacts the league that would be losing the player (the 'ceding league') to have it sign off on releasing the player from their league.

Step 4: The requesting organization contacts the receiving league to receive final approval to have the inter-league transfer completed.

The sequential steps of the inter-league transfer process should be completed electronically if possible. However, before any approved transfer will be considered complete, a 'hard copy' inter-league transfer form (including the original signatures of the parties to the approval process) must be completed. A copy of this [inter-league transfer form](#) must be in the possession of the league registrar of the team on which the transferred player is playing.

4) Referee Payment

Any MTOC-eligible league wishing to change its referee payment amount must bring a request before the Leagues Committee. The Leagues Committee will review current levels of referee payments annually with the intent of maintaining relative parity among leagues.

If a MTOC-eligible league decides to change referee fees without Leagues Committee approval, teams from that league may not be eligible for MTOC play.

5) Roster Submission and "Freeze Dates":

Rosters will no longer be submitted to the MA Youth office prior to the first game of the season.

Rosters for MTOC play will be frozen as of June 1st, with no changes permitted after that date. (Note: inter-league transfers are not permitted after April 30th.) Each MTOC eligible league's registrar will provide a certified roster copy of all teams qualifying to represent their league at MTOC. It is the responsibility of each league president to have these rosters delivered to the MTOC registration staff prior to the start of play of the tournament.

6) Roster Composition: (effective October 5, 2008)

In affirming the importance of providing community-based soccer opportunities for youth players, roster composition of MTOC-eligible teams from member leagues will conform with the following standards:

For U14 and younger: To be eligible for MTOC play, at least 75% of the players on a town's/club's submitted roster must be from that same league's recognized town/club organization. The Leagues Committee must approve any exceptions to this requirement.

For U15 and older: recognizing that the difficulty in forming teams increases as the player become older, town organizations/clubs may collaborate to create appropriately competitive soccer opportunities where they might not otherwise exist.

In every instance, these collaborative teams must:

1. be registered with a member town/club organization of the league they are representing;
2. must completely adhere to the Leagues Committee intra-league and inter-league player movement agreements;
3. must play a regular league schedule within a MTOC-affiliated league;
4. 75% of rostered players must come from within the sponsoring league; and,
5. all players must be properly affiliated with the state association.

The Leagues Committee must approve any exceptions to any of these requirements.
