

## Migration information – 2019-2020

Stack Sports migrated your organization's adult members registration data from Fall 2019 – Spring 2020 into the New U.S. Soccer registration system (old Affinity). Mass Youth Soccer added your player registration data for that same year into the new registration system; this provides our member organizations with continuous registration data for both adults and players since Fall 2015.

This means that adults that were registered in the current U.S. Soccer Connect system for Fall 2019 – Spring 2020 **and** adults that were registered in the (old Affinity) new U.S. Soccer Connect system and do not remember their username or password will register as “Returning Users” for the Fall 2020 – Spring 2021 registration year and will use the **“Forgot Password”** function to connect to their old/uploaded information and **wait for the reply email prior to moving forward with their adult registration**. If the adult was registered in the (old Affinity) new U.S. Soccer Connect system and knows their username and password, they will simply complete the registration process for this new seasonal year as returning users.

Migrated information includes your adult members name, date of birth and email address and may include:

- a. SafeSport Abuse Prevention training approval date.
- b. Center for Disease Control Concussion (CDC) training approval date.
  - a. **IMPORTANT:** CDC moved online training and requires more information for account set up; you cannot access old accounts (those completed March 1<sup>st</sup>, 2020 or earlier). This information is posted on both the Adult Registration and Risk Manager Information webpages.
  - b. All adults should save both training certificates of approval on their computer so if needed, they can upload them onto the new registration system and if they meet the criteria for approval, you can manually approve them.
- c. CORI Verification date.
- d. Background Check/Risk Status and Expire Date.

If you, or your adult members are unsure on how to complete your Adult Registration, call the U.S. Soccer Connect help line at (800) 808- 7195 or (855) 703-2558.
