

SKILL ACQUISITION: Passing/Shooting: Surface of the foot and ball, Pace and accuracy

Soccer Bocce

Number of Players: 1 - 4 – kids, parents, grandparents (whomever is available)

Equipment: Any outdoor space, a soccer ball each & a tennis ball or small object to use as the pallino (target ball.)

Organization: Each player starts with a ball. For U8 players and for simple scoring, each target is worth 1 point. Select a target in the yard. In the picture above, targets can be a rock, a tree, a bike or even a picnic table. You select the targets based on what objects are in the yard.

Object of the Game: Which ever player picks the target, they also choose how many kicks you get to use to hit it. For example, hit the rock in 2 kicks. If you hit the rock in 1 or 2 kicks, you earn a point. If it takes you 3 or more, no point for that target. After all participants have gone and finished, the next player picks a new target. You cannot kick your ball a second time until it has stopped rolling from the first kick.

Scoring: 1 point each time you hit a target in the agreed upon number of kicks.
Players agree upon a total score to win. For example, the first player to 20 points wins.

Variations (select as many variations as necessary):

- Try to find a playing area that is not completely flat
- Try using equal number of left foot kicks and right foot kicks
- Toss the pallino further away
- If you are winning by 2 or more, your team can only use their weaker foot until the game is back to within 1 point or even.
